

Implementation Schedule

Technology in the Early Elementary Classroom

Final Project

Arlene Lambert

Crescenta Valley Adventist School

La Crescenta, CA

Grade 2

Teacher02@cvas.net

Computers

I have 2 computers in my computer center that are preprogrammed with games. There are 2 more computers that use CD's. There is one color printer in the computer center. I also have one computer with internet access at my desk as well a printer.

Computer Management

- ? I have 15 students in grade two.
- ? Each student will have 2 fifteen minute sessions during the day on M-TH. A schedule will be posted. The students will set a timer when they begin their computer time. They will quietly go and tap the next person on the schedule when their time is up.
- ? In the afternoon students may finish a morning project or play games if their seatwork is done.
- ? Friday will be a catch-up day to finish assignments or complete assignments that were missed.
- ? Students will use the "ask 2 before me" rule.
- ? Students will use a red cup if they need help from me.
- ? Each computer will have headphones.

Faith Integration

- ? Students will illustrate their memory verse each week.
- ? Students will keep a Bible Journal in which they respond to the stories we are reading.
- ? Students will learn about copyright, honesty, and trustworthiness when they are using the computer.

Net Performance Standards

- ? Use input devices and output devices to successfully operate computers.
- ? Work cooperatively with peers when using technology in the classroom.
- ? Practice responsible use of technology systems and software and show ethical behavior when using technology.
- ? Create developmentally appropriate multimedia products with support from teacher and student partners.

Computer Schedule Language Arts Time

	Monday	Tuesday	Wednesday	Thursday	Friday
